

## TurboDX™ – Hardwired – Limited Time Offer

Hardwired Electric Vehicle Charger 7.7 kW AC Power (Level 2)

### Key Features

- **Enhanced Protection System** – Equipped with advanced leakage, thermal, and missing-ground detection, delivering elevated safety performance and full UL / cUL certification.
- **Outdoor-Ready, Durable Design** – Slim, compact profile with a rugged aluminum rear enclosure engineered for long-term reliability in both indoor and outdoor environments.
- **Fully Potted Electronics** – Encapsulated components provide superior protection against thermal shock, static discharge, and environmental stress, while improving heat dissipation.
- **Quick-Read LED Indicators** – Clear status lights offer instant visibility into charging conditions and protective fault states.
- **Self-Correcting Operation** – Auto-Reboot resolves issues during self-check, while Auto-Recovery automatically responds to temperature or voltage irregularities.
- **Easy to Use** – Simply plug in and charge—no setup or configuration required.

### Technical Specifications

Voltage	208 / 240V AC
Current	32A
Circuit Breaker Rating	40A, 240V circuit
Frequency	50 / 60Hz
Maximum Power Output	7.7 kW
Cable Length	23 feet / 7m
Weight	17lbs / 7.6kg
Dimensions	12.5" x 5.5" x 3.5"
Operating Temperature	-40°C to +55°C
Indoor/Outdoor	Yes / IP66 (watertight)
Coupler	SAE J1772
Certification	UL, cUL, and FCC
